UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF PLANT INDUSTRY
WASHINGTON

DIVISION OF
HORTICULTURAL CROPS AND DISEASES

Mr. Frank L. Seifert, Propr.
Summit Nurseries
Stillwater, Minn.

Dear Sir:

Continuing an arrangement of many years' standing this Division is cooperating with the Department Library in the upbuilding of the Department's collection of the catalogs and other trade lists issued by nurserymen and seedsmen. This collection, possibly the largest of its kind in existence, now numbers more than 50,000 and forms a permanent part of the Department Library. As a student's and research worker's collection it is invaluable in investigations concerning the history, nomenclature, characteristics, and distribution of varieties. As a buyer's collection it is in constant use in answering inquiries as to sources from which plant material may be obtained and as to varieties being introduced to the trade. The collection as a whole is open to the public for reference use, and the information in it is made readily available by means of indexes.

In order that this collection may be kept up to date and as complete as possible we are desirous of obtaining all available catalogs and lists of fruits, vegetables, and ornamentals. To this end will you kindly send us your catalogs and price lists of the current year? We shall also greatly appreciate the favor if you will place the address "Division of Horticultural Crops and Diseases, Bureau of Plant Industry, U. S. Department of Agriculture, Washington, D. C." upon your permanent mailing list to receive your annual catalog and other publications as issued.

We inclose a gummed addressed label for your convenience in sending your publications.

Very truly yours,

E. C. Auchter,
Principal Horticulturist in Charge.

Gentlemen: We only do a strictly wholesale business and we just use a mimeographed list, which we don't think would be of much value to you. This only gives the name of the plants and the prices, but no descriptions or history. However, we are enclosing our last list for this year which is the only thing we have left.

1. The first part of the document is a list of names and titles, including "The Hon. Mr. Justice" and "The Hon. Mr. Justice".
